

Nosarumen Imuentinyan

Frontend Web Developer

I develop fast loading and responsive websites that meet customer requirements and achieve business objectives using Javascript and React.

EXPERIENCE

Frontend Developer

Muzzlab Technologies

April 2022 – Present | (Remote)

- Collaborating with the project manager and backend engineer
- Designing and developing the client side of the sub-company's (Illusion Decals) website
- Ensuring cross-platform development and optimization for mobile responsiveness
- Using React.js to solve the challenge of clients not being able to easily access the companies products by working with the backend engineer to implement a category based search system

Frontend Developer (Freelance)

Upwork

Jan 2020 – May 2022 | (Remote)

- Collaborated with clients to develop websites that met their specific demands / needs

Frontend Open Source Contributor

GitHub

Jan 2022 – Present | (Remote)

- Contributed to open source projects and created pull requests
- Implemented a functioning suggestions search bar for an e-commerce project to search available items from the API using React.js
- Enabled users to scale through the items they needed much more faster

CERTIFICATIONS

- 1.) freeCodeCamp.org Responsive Web Design Developer Certification
- 2.) freeCodeCamp.org JavaScript Algorithms and Data Structures Developer Certification
